

Registration of Membership **SAVE OUR RING OF GREEN**

Mission: The mission of Save Our Ring Of Green (SOROG) is to protect the designated buffer of land left surrounding the City of Thousand Oaks (ring of open space) that also affects bordering communities such as the Santa Rosa Valley, Camarillo, Malibu, Westlake Village, Oak Park/Agoura and Newbury Park from development and human encroachment...in other words, STOP URBAN SPRAWL.

Purpose: Why is this important? We need to preserve a safe haven for native plants and animals as they are pushed out of their native habitats within the City of Thousand Oaks (urban sprawl). This will ensure the proliferation of our native wildlife for future generations to enjoy while preventing extinction of sensitive, endangered and threatened wildlife. It will also protect the connectivity of wildlife corridors within and beyond our City's limits that many species need in order to survive.

Immediate Concern: To stop development (HPD 2002-80/LD 249) which is being considered by the City of Thousand Oaks that would cut through the **Ring Of Green north of the Mt. Clef Ridge**. The City has been protecting and increasing this open space and park area for years. If approved, it would connect homes in Thousand Oaks directly to homes in Santa Rosa Valley, destroying the Mount Clef Ridge wildlife corridor that is so important to medium and large animals who need to roam between the Santa Monica Mountains and the Santa Susanna Mountains to continue to propagate. SOROG is already working to stop this and has the support of the City Council and County Supervisor to stop this development.
